SUMMARY

BACKGROUND: Management plans for the control of IMS were designed during the implementation of Action B.5. In Action B.6 entitled “Pilot implementation of management plans to control IMS” these plans are pilot implemented, progressively, as listed in the deliverable “List of management actions for the control of IMS, in the pilot areas according to the proposed management plans”.

RESULTS: The particular deliverable presents the report regarding the actions from the abovementioned list which were implemented during 2016 for Greece and Italy. In the text that follows, for each of the 2016 activities are described in detail and the results are presented.

CONCLUSION: The second year of implementation of the management plans was fully implemented according to the plan. The implementation of LIFE CONOPS management plans will continue for 2017 with a greater spectrum of stakeholders and activities.
